JetCoin[®] Kiosks featuring FastPay[™]

Fast Transactions, Minimal Staff Involvement

The JetCoin[®] with FastPay[™] offers your customers a fast and easy service to redeem their loose coins. Customers simply pour in their coin and their cash is automatically dispensed. Customers no longer have to wait in line and your staff is free to concentrate on other value-added activities.

1 Customers choose their language.

2 Pour their coin in.

3 And take their cash.

• Proven Technology

Cummins-Allison JetSort[®] heavy-duty coin sorters have been used by financial institutions, casinos, retailers and armored carriers for 25 plus years. The same accuracy and reliability is found in each JetCoin self-service coin kiosk.

• Unmatched Support

Like all Cummins products, the JetCoin is supported by local sales and service. Cummins nationwide network of factory direct personnel make sure your equipment stays running smoothly for years.

Manufactured in the U.S. under rigorous specifications, Cummins sorting disks are warranted to process 50,000,000 coins in most applications.

JetCoin[®] featuring FastPay[™]

Simplifies Self-Service Coin for your Customers...

- Customers appreciate the fastest sorting speed in the industry of up to 6,000 coins per minute and get their cash instantly with the FastPay automated dispenser.
- A touch-screen display guides users through the simple coin redemption process.
- Robust, proven technology provides outstanding accuracy and reliability, ensuring customer satisfaction and repeat visits.
- Customers can count their coins at their convenience and don't need to wait in line for service.

...And Your Staff!

- Staff members no longer have to redeem customers' receipts, freeing up time to concentrate on other value-added activities.
- The JetCoin with FastPay is designed to run continuously during peak hours, with minimal staff involvement.
- Balancing is fast and easy – with detailed reports of coin and currency levels available.

CUMMINS

JetCoin® Coin Collection Options

Cummins offers the widest selection of self-service coin kiosks – your local Cummins rep can help you determine what machine best suits your business.

Sorted Bag

Bag Collection Systems

Sorted Bag –

Each denomination is counted and sorted into separate bags that require no further processing. The sorted coins can be easily transported for deposit or used to refill cash tills or other coin dispensing machines.

Mixed Bag

Mixed Bag –

Coins are counted by denomination and then collected in 6 bags of mixed coins. Each bag holds approximately 6,000 coins – combining the convenience of bags with the higher capacity of bins.

Single Bin

Bin Collection Systems

- **Single Bin** — Coins are counted by denomination and collected using a single, secure bin with a capacity of 55,000 - 70,000 mixed coins – allowing for maximum machine uptime.
- **Dual Bin** — The largest capacity solution, the dual bin machine is designed to run for long periods of time without interruption. Coins are counted by denomination and collected in two secure bins with a total capacity of approximately 124,000 mixed coins. When the first bin is full, coins are distributed into the second bin.

Dual Bin

OPTIONS:

Further Enhance Your Coin Kiosk With The Following Options...

- **JetLink™ Server Access**

Cummins JetLink™ software allows you to remotely monitor all of your Cummins kiosks in real-time. Quickly check bin/bag limits, monitor currency levels in the FastPay and receive instant error alerts.

- **Suspect Coin Detection**

Suspect coins (foreign coins, tokens, slugs, etc.) are uncouned and diverted to a coin return cup.

- **Scrolling LED Light***

The standard CoinMax backlit sign on the JetCoin Dual Bin machine can be replaced with a scrolling LED light with customizable text.

**Only available for dual bin model.*

- **Graphics Package ▶**

Outfit your kiosk with eye-catching graphics that demand attention and increase usage – choose from a variety of CoinMax® accessories or create custom graphics for your business.

JetCoin[®]

Self Service Coin Kiosk featuring FastPay[™] Automated Payout

Standard Features

High Speed Processing –

At up to 6,000 coins-per-minute, the JetCoin boasts the fastest coin sorting in the industry.

Reports – Easily access real-time daily and weekly coin totals. Transaction reports are archived and can be used to assist in machine balancing or settling a customer dispute.

Debris Management – Debris such as paper clips, bolts and bent coin is automatically diverted.

Customizable Transaction Receipt – Include a greeting for your customers or communicate a store special on every transaction receipt. Up to four lines of text can be printed on the top of the receipt and two lines at the bottom.
