

# Money Machine™

## Self-Service Coin Machines

Earn more per square foot, build traffic,  
improve customer service

# Accurate and Reliable

## Customer-Driven Technology

Money Machine™ self-service coin counters are the fastest, high-capacity coin processors in the industry. The patented technology used in the Money Machine sorts and counts at speeds up to 4,100 coins per minute. This high-speed, robust technology gives your customers the best-in-class service expected of your store.

## Accuracy and Dependability

Managing coin processing is easy when counts are accurate and balancing intuitive. With 99.995% accuracy, the Money Machine provides precise processing. This translates into worry-free operations, and greater efficiency at your service counter.

Unmatched dependability—warranted to 50 million mixed coins—ensures uninterrupted service to your customers and customer service personnel. The Money Machine is designed with only

one moving part, which means fewer jams and lower maintenance costs.

## World-Class Service and Support

Cummins Allison service technicians stand behind each product. Delivering dependable, local service and parts inventories, each skilled professional is trained to maintain your specific machine requirements. CA service is unparalleled, 97% satisfaction to customers day in, day out, year after year.

## Enhance Productivity with the World's Most Powerful Coin Processor

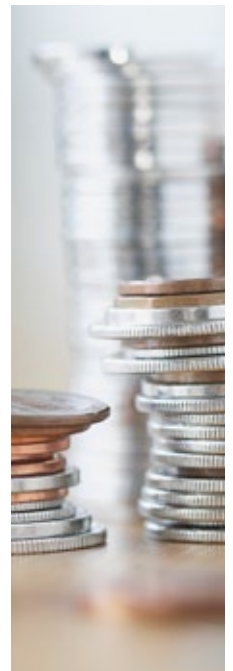

**4,100 Coins/Minute**  
Fast, Efficient Coin Processing

**99.995% Accurate**  
Ensures Precise Balancing

**98% Uptime**  
Ensures Worry-Free Operations

Bin coin collection provides large coin capacity— up to 70,000 coins— as well as handling simplicity. Bin collection minimizes interruptions and maximizes machine uptime.

## Money Machine is an Income Earner and Essential Service-Delivery Tool

The Money Machine provides the industry's best return on investment, improves customer service and reduces the number of customers in your service line. As the world's most powerful coin counter and sorter, Money Machine delivers 98% uptime for consistent, reliable customer transactions. And more uptime means more income-earning transactions for you and more satisfied customers in your store.

**Earn More from your Investment.** 100% of machine fees go toward your bottom line – increase income and improve cash flow.

**Control Fees for Improved ROI.** Adjust the service fee to be competitive – control your earning power.

**Put Cash into Customer Hands.** 100% automated service gives customers

disposable income on the spot – no waiting in line and no need to turn customers away during non-service hours.

### Traffic-Building Service

With 80% of U.S. households saving coin, there is no question coin processing services are in demand. Combined with the fact that 40% of coin savers redeem coins 2 to 3 times per year it is clear self-service coin counters can help you build traffic to your store and deliver fast return on investment.\*

### Instant Cash in Customers Hands

93% of customers who redeem coins in a grocery store do so to receive cash in hand. This means the disposable cash redeemed in your store is likely to be spent in your store. Notably, 49% of people who

redeemed coins in a grocery store said they intended to spend it on general living expenses, such as groceries.

### Automated Payouts Rank Highest

Installation of a self-service coin counter can increase overall customer satisfaction ratings by 10% to 20%.\* Those features considered most important to customers were those which provided a quicker user experience – more than 75% prefer self-service coin counters that provide a cash payout at the machine.

\*Top Six Drivers of Consumer Use of Self-Service Coin Machines: BranMark Strategy Group, 2010; Assessing the Opportunities for SSC Machines, BranMark Strategy Group, 2011

Cummins Allison world-class sales and service network includes hundreds of local representatives in more than 50 offices in North America.

The Money Machine with FastPay dispenses cash automatically to customers after each transaction, adding greater ease and efficiency to your operation.

Bag collection sorts coins by denomination into 12 high-volume bags for a combined capacity of 60,000 coins. Bag stations roll out for easy access.

## Money Machine Features and Options

The Money Machine is built for fast, effortless operation and best-in-class reliability. Designed to maximize customer satisfaction, it provides tremendous feature flexibility to suit your preferences and operational requirements.

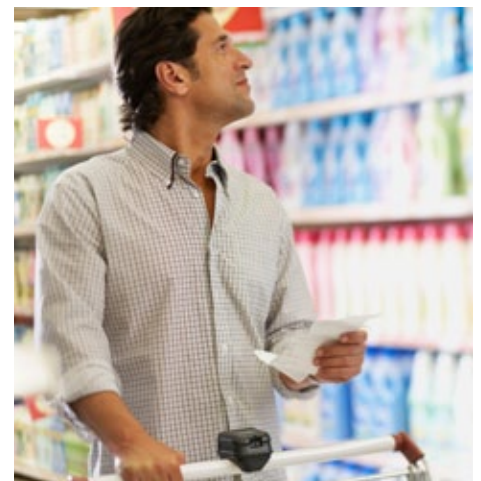

### Coin Collection Systems

Choose from a 70,000 coin-capacity bin to securely capture and store all processed coins, or a system of twelve high-volume bags able to hold 60,000 sorted coins. Both coin collection systems are simple to

manage and transport, providing flexibility in how each store manages its coin collection and pick up.

### FastPay™ Automated Payout

Dispense cash direct to your customers with the FastPay automated payout system. Customers receive full payment immediately after coins are processed, giving them instant access to disposable cash to spend in your store while minimizing customer service lines.

Customizable options provide flexibility to suit your exact operational and promotional needs.

### Customizable Touch-Screen Display

A large 15" color touch-screen guides customers through the coin-counting process. Custom graphics, images, and multi-lingual text give you the flexibility you need to promote products and services as well as cater to a diverse audience.

### On-Screen Advertising

Advertise products and services through fixed images or continuous play videos. On-screen advertising provides high visibility to your most important promotions.

### Remote Management Access

Keep tabs on one or more Money Machines through remote management software. Remote management gives you immediate access to bin/bag levels, daily reports and transaction history in real time, with instant notification of error alerts. Schedule bin

pickups, update machine messages or monitor activity from your desktop or smart phone.

### Installation Options

Money Machine can be installed at the front of your store as a free-standing kiosk or integrated within your service counter. Through-the-wall installations provide back-office access to coin collection systems and touch-screen controls, providing the highest level of operator security.

### Signs and Graphics

Outfit coin counting machines with eye-catching graphics which demand attention and increase usage. Choose from several CoinMax® accessories or create custom graphics to match your brand.

Vibrant cabinet graphics are part of our CoinMax turnkey merchandising solution designed to drive awareness and increase usage of the Money Machine.

## Money Machine Self-Service Coin Machines

### Standard Features

**High Speed Processing** At speeds as fast as 4,100 coins-per-minute, the Money Machine boasts the fastest coin sorting in the industry.

**Advanced Debris Management** Debris such as paper clips, screws, bolts and bent coin is diverted to a debris cup for easy disposal. (Available on select models.)

**Continuous Suspect Coin Detection** Suspect coins are uncounted and diverted to a coin return cup while maintaining the unmatched coin sorting speed.

**Transaction Memory and Reporting** More than 30,000 transactions are stored in the Money Machine memory. Daily reports can be easily obtained at any time by authorized employees (as many as 100 individual user passwords.)

**Customizable Screen Display** Customized graphics can be placed on the initial

customer greeting screen. Text can be customized with specific phrases such as service fee amounts and fee disclaimers.

**Customizable Transaction Receipt** Up to four lines of text can be printed on both the top and bottom of the patron receipt. In addition, as many as two logos may be printed on the receipt.
