

CARWASH OPERATIONS COMPANY, BEAUMONT, TEXAS

Managing time helps manage growth

“When we were little, the time we spent on things like counting our money didn’t really matter,” said Patty Landers, co-owner of Carwash Operations Company, Inc., in Beaumont, Tex. “Now that we have multiple car wash locations plus carwash equipment and supply distributorship, accuracy and efficiency for money processing is essential.”

The accuracy and efficiency Landers talks about comes from the Cummins Allison two-pocket JetScan® currency scanner she uses to handle all of the notes that the husband-and-wife team collect from the currency changers at their four Squeaky Clean Car Wash locations.

“My husband Darryl and I started with a Cummins Allison JetCount® machine that

just counted the bills, but the JetScan machine we bought next did so much more, including counting mixed bills and sorting by denomination. We actually tried another brand of machine, but it just didn’t operate as smoothly.

Now we have the Cummins Allison two-pocket machine, and it makes things even easier for us.”

The two-pocket JetScan currency scanner performs all of the functions of smaller JetScan machines, but its added efficiency makes it easier to take advantage of many more advanced functions. In one scan,

“Now we have the Cummins Allison two-pocket machine, and it makes things even easier for us.”

the machine will face all of the bills in one direction. In another, it will orient the bills the same way.

In the process of counting and sorting, the machine will stop at pre-set counts – say 100 bills, for example – to allow that unit to be bundled and strapped. Then it will automatically continue until the next bundle is readied.

“Our bank likes us because they know all of our bundles are neat, tidy and accurate.”

“We don’t take advantage of the counterfeit detection and currency fitness features of the machine because all of the bills that go into our changers already pass through a validator, but it still is nice to know that the machine is that advanced,” Landers remarked.

“Being able to streamline the entire scanning, counting and depositing operation opens up the rest of the time we need to manage our business effectively.”

Since Carwash Operations Company, Inc. added the two-pocket JetScan currency

scanner, owners Darryl and Patty Landers have noticed time and labor savings, plus increased accuracy in currency processing.
