Desktop, countertop and floor model solutions

JetScan® MPS family

JetScan iFX® family

JetScan family

Save time and improve productivity with a wide breadth of currency counting solutions

When it comes to counting currency, it's not one-size-fits-all. Different organizations have different needs, and requirements can vary between functional departments of the same business. Processing speed, size and capability all play a part in considering which machine is right for you. Instead of shopping around with multiple suppliers, take satisfaction in knowing that you can go to one source for all your currency processing needs.

The most utilized, sought-after currency scanners around

Thousands of financial institutions, as well as casinos, armored car carriers, retailers and government agencies rely on the speed, accuracy and dependability of our industry-leading JetScan®, JetScan iFX®, and JetScan MPS currency scanners and sorters. With our breadth of product selection and the largest network of local sales and service offices, you know that you get the right solution for your operations and that it will be supported whenever you need it.

“With Cummins Allison you have 25-30% more free time to do other things.”

Joe Serna, Teller Manager, Rio Bank

Functionality to suit your needs

Choose from a multitude of features and functions:

Count mixed denominations: Count the entire stack of money without first sorting each denomination.

Face/orient: Arrange bills so that they're all facing the same way or all right-side-up.

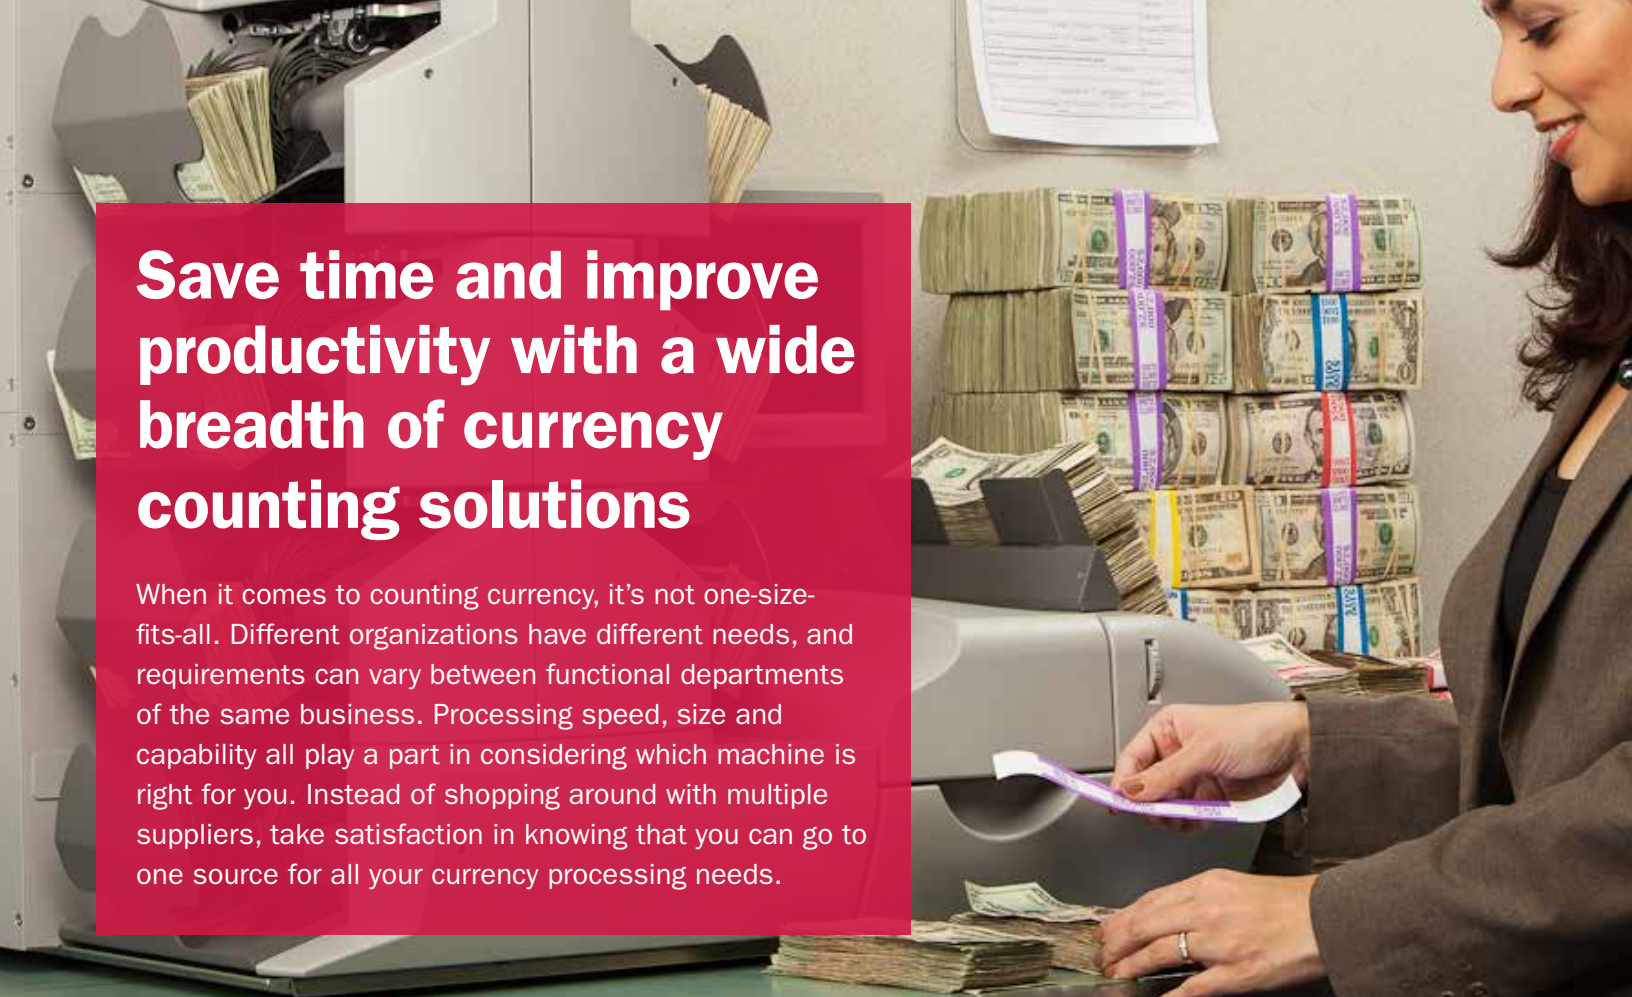

Catch strangers: Especially important while making straps or bundles, catch bills that don't belong in that particular denomination.

Printed reports: Print detailed or summary reports and keep a record of cash processed.

Counterfeit detection: Choose from a variety of anti-counterfeit measures: magnetic, ultraviolet, fluorescent, infrared, and proprietary detection techniques.

Imaging: Capture and store serial numbers and full images of each bill.

Cummins Allison is the only company to offer so many choices in currency processing equipment backed by a national network of local sales and service offices.

Faster and smarter solutions for every industry

No matter what industry you're in, if you count money, you need a device that's fast, accurate and reliable. Choose the award-winning company that has the largest network of local sales and service offices to make sure you get the product and support that you need.

Financial institutions

Desktop 1-, 1.5-, and 2-pocket machines for the teller line and back counter make quick work of deposits and keeps depositors happy.

You can even scan checks on the same device as the currency and quickly process the entire deposit right in front of the customer. Multi-pocket solutions in the branch vault or central cash vault mean quick work of large counts. Use our advanced counterfeit detection and serial number capture to stop and document counterfeits before they even enter your cash pool.

“We're looking for a great product and customer service, and we found that in Cummins Allison.”

Bill Baldoni, Chief Operating Officer, Home State Bank

Casinos and gaming

Small, powerful currency scanners in the cage and bank mean cash is processed quickly, and operations perform efficiently. Players and property

employees are happier with the speed of transactions and continue with activities. Configurable multi-pocket sorters can be customized to fit the needs and physical space of the count room to increase productivity and efficiency. Many solutions can also read and image tickets mixed with cash, further increasing efficiency, decreasing footprint, and decreasing equipment maintenance costs.

Armored carriers

Processing money is the very business of cash-in-transit companies. Margins are thin, so you need machines that are fast, accurate and reliable. Let your tellers count deposits on a single device that is the fastest currency counter and fastest check scanner in the industry. Multi-pocket sorters can be configured to suit your needs to process and strap large batches. Fewer stops and more uptime mean productivity in your vault remains high.

Retailers

Make the task of counting down and closing out tills easy. Count cash and scan checks on the same device to make deposit preparation simple and efficient. Spend less time in the cash office and more time tending to other areas of your business. Strap bills quickly while catching bills that don't belong in a particular denomination, and perform an audit count of your safe in a fraction of the time as before.

Other industries

Whether it's vending, amusement, entertainment, government, service or any other industry, it's valuable money, and you want to make sure it's processed quickly and easily. Let us help you choose a solution that fits your needs, your business and your budget.
