

Money Machine[®] 2

Self-Service Coin Counter

Free-up cashiers, generate revenue, recycle coin

Converting coins to cash is easy and affordable

Adding a self-service coin machine to your casino is easy and more cost-effective than ever before. With Money Machine[®] 2 coin counters, you can add the latest technology for much less than you'd think. Money Machine 2 is available in high-speed bag or bin configurations and there are multiple procurement options so you can add new coin-counting services without using precious capital. Free-up cashiers, grow your local traffic and generate incremental revenue with the latest coin-counting solution from a partner you trust, Cummins Allison.

More players mean more revenue

Local residents can add a steady and consistent stream of business if you give them reasons to play at your tables. You can choose to offer coin-counting services for no fee or a modest fee and enable patrons to convert household change into casino tickets.

Improve cashier operations

Keep your cashier lines short and running smoothly by directing patrons to cash in their coins using self-service coin machines and eliminating the need of redeeming coin with cashiers.

Recycle coin

Reduce costs associated with buying processed coin. With a self-service coin counter, you'll increase the amount of coin to available reuse in your property.

Why choose Money Machine 2?

Not all coin-counting equipment is the same. Better equipment equals a better customer experience and that's a positive reflection on your property and your brand. Money Machine 2 is the latest technology, the fastest coin counter and

is very easy for patrons and your staff to use. It's extremely quiet, quick and very reliable, meaning you'll have more uptime with little to no involvement by your staff. You can choose the level of coin handling that makes the best sense for your property. Let Cummins Allison manage the entire process for you, manage just the coin processing, or handle machine maintenance only. Best of all, it's affordably priced so you can add desirable coin-counting services in any way that works for your operation.

Placement/Bin	\$10,920	\$21,840	N/A	1.5% - 2.5%

* Based on 16 bag and dual bin MM2 with \$2,800 per week coin volume and 10.9% user fee. Includes all costs for managing machine and coin pickup/processing. All bin machine programs based on Cummins Allison managing pickup, processing and reporting.

Accurate and reliable

Customer-driven technology

Money Machine 2 self-service coin counters are the fastest high-capacity coin processors in the industry. The patented technology used in Money Machine 2 sorts and counts at speeds up to 4,100 coins per minute. This robust, high-speed operation gives your customers the best-in-class service expected of your property.

Accuracy and dependability

Balancing is easy when counts are accurate. Money Machine 2 processing is intuitive and precise, with 99.995% accuracy. This translates into worry-free operations, less time managing coin processing and improved efficiency.

Unmatched dependability – warranted to 50 million mixed coins – ensures uninterrupted service to your customers and casino personnel. Money Machine 2 is designed with only one moving part, which means fewer jams and lower maintenance costs.

World-class service and support

Cummins Allison service technicians stand behind each product. Delivering dependable, local service and parts inventories, each skilled professional is trained to maintain your specific machine requirements. CA service gives unparalleled, 97% satisfaction to customers day in, day out, year after year.

Keep your cashier lines short and running smoothly by directing patrons to your self-service coin machine.

Money Machine[®] 2 features and options

Money Machine 2 is built for fast, effortless operation and best-in-class reliability. Designed to maximize customer satisfaction, it provides tremendous feature flexibility to suit your preferences and operational requirements.

Coin-collection systems

A choice of five coin-collection systems are available. Bag machines can be configured to sort or mix coins for continuous processing, less frequent bag changes and reduced coin pickups.

- Bag capture with 16 sorted bags – 78,000 coins total
- Bag capture with 16 mixed bags – 80,000 coins total
- Bag capture with 8 sorted bags – 36,000 coins total
- Single bin – 70,000 mixed coin capacity
- Dual bins – 140,000 mixed coin capacity

Each system simplifies coin management for your casino.

Dual-bin coin collection minimizes interruptions and lowers pickup costs by half.

High-strength polymer bins are easy to change with lightweight dollies and can be stacked for easy storage.

Bag collection sorts or mixes coins into 16 high-volume bags for a capacity of up to 78,000 or 80,000 coins. Bag stations roll out for easy access.

Mixed bag with label printer shown above.

Remote management access

Keep tabs on one or more Money Machine units through remote-management software. Remote management gives you immediate access to bin levels, daily reports and transaction history in real time, with instant notification of error alerts. Schedule bin pickups, update machine messages, or monitor activity from your desktop or smartphone.

Enhanced bag management screens

Personnel will appreciate the highly visual bag-management system displayed on the unit's LCD. Clear and simple steps for changing full bags and the interactive display keep training to a minimum.

A through-the-wall configuration for either bag or bin allows select activities to be performed at the back of the machine for secure, behind-the-scenes coin management.

Customizable touch-screen display

A large 15" color touch-screen guides customers through the coin-counting process. Custom graphics, images, and multilingual text give you the flexibility to promote your brand.

Machine graphics

Outfit your coin-counting machines with eye-catching graphics. Use standard Cummins Allison graphics, choose to design your own graphics, or opt for attractive stainless steel panels – depending on how you want to promote coin-counting services.

Stainless steel graphics provide a more elegant finish for your casino. Machine shown with optional charcoal hood.

On-screen advertising

Advertise products and services through fixed images or continuous-play videos. On-screen advertising provides high visibility to your most important promotions.

Choose how coin counting is added to your casino

You have the freedom to place a machine in your casino, rent, lease or own your coin machine. Whatever option you choose, your customers enjoy the benefits of an on-site self-service coin machine.

Hands-free coin management program

Our unique Coin Management Program (CMP) includes bin or mixed bag pickup from an approved logistics company, along with coin processing, program

administration and electronic bank deposits within three days of your bin or mixed bag deposit.

CMP also removes risks associated with employee-handled coin. We monitor your machine online through our JetLink™ software and dispatch service, bin or mixed bag pickup when needed. You'll receive monthly reports detailing the revenue you're producing.

Annual server access and activation are free to CMP customers. Machines on CMP are required to have preventive maintenance and remote management agreements.

Operational benefits: Work with your local Cummins Allison representative to determine which combination of program options best meets your business needs, risk level and revenue objectives.
