

Money Machine[®] 2 Self-Service Coin Counter

A better option for coin-counting services

A better way to offer coin-counting services in your stores

You may think all coin-counting equipment is the same, but it's not. Money Machine 2 is next-generation technology that is faster, highly accurate and very easy to use. Best of all, it's affordably priced, giving you more options to increase revenue from a service your customer expects.

Why does the equipment matter?

Better equipment equals a better customer experience and that's a positive reflection on your store and your brand. Customers want to redeem their coins quickly and easily, using a quiet machine. Money Machine 2 offers all that plus reliable operation so the coin counter is up and running when customers want to use it.

Increase revenue. Choose the type of coin counter that works best for you. With sorted or mixed bag models and single or dual bin options, you can decrease coin management costs and increase machine up-time.

Better ROI. You can buy, lease, or use our placement model, depending on how you

want to manage coin-counting services. These choices are also available with our hands-free Coin Management Program, making it easier than ever to get the best ROI.

Coin recycling

Reduce your spend on purchased coin by recycling what you take in from coin-counting machines. Let us help you evaluate your options.

Full-service, hands-free operation

We offer different programs to meet your business objectives. We can manage the entire operation for you, you can manage it yourself, or anything in between. Compare options and see how Cummins Allison can be flexible to help your store revenue grow.

Compare your options and grow your revenue

Program/ Product	Profit Projections*		Years Payback	Profit % of Coin Volume
	5 Years	10 Years		
Purchase/Bag	\$58,015	\$130,615	1.3	8.0%-10.0%
Lease/Bag	\$52,475	\$125,075	1.4	7.2%-10.0%
Purchase/Bin	\$41,155	\$96,910	1.8	5.7%-7.7%
Lease/Bin	\$35,605	\$91,360	2.1	4.9%-7.7%
Placement/Bin	\$14,560	\$29,120	N/A	1.5%-3.0%

* Based on \$2,800 per week coin volume and 11.9% user fee. Includes all costs for managing coin and machine. Bins based on Cummins Allison managing the coin pickup, processing and reporting.

Accurate and reliable

Customer-driven technology

Money Machine 2 self-service coin counters are the fastest high-capacity coin processors in the industry. The patented technology used in Money Machine 2 sorts and counts at speeds up to 4,100 coins per minute. This robust, high-speed operation gives your customers the best-in-class service expected of your store.

Accuracy and dependability

Balancing is easy when counts are accurate. Money Machine 2 processing is intuitive and precise, with 99.995% accuracy. This translates to worry-free operations, and greater efficiency at your service counter.

Unmatched dependability – warranted to 50 million mixed coins – ensures uninterrupted service to your customers and customer service personnel. Money Machine 2 is designed with only one moving part, which means fewer jams and lower maintenance costs.

World-class service and support

Cummins Allison service technicians stand behind each product. Delivering dependable, local service and parts inventories, each skilled professional is trained to maintain your specific machine requirements. Cummins Allison service gives unparalleled, 97% satisfaction to customers day in, day out, year after year.

Faster, more reliable machines let your customers count their change quickly and get on with their shopping.

Money Machine 2 features and options

Money Machine 2 is built for fast, effortless operation and best-in-class reliability. Designed to maximize customer satisfaction, it provides tremendous feature flexibility to suit your preferences and operational requirements.

Coin-collection systems

A choice of five coin-collection systems makes coin management and pickup flexible from store to store. Bag machines can be configured to sort or mix coins for continuous processing, less frequent bag changes and reduced coin pickups.

- Bag capture with 16 sorted bags – 78,000 coins total
- Bag capture with 16 mixed bags – 80,000 coins total
- Bag capture with 8 sorted bags – 36,000 coins total
- Single bin – 70,000 mixed coin capacity
- Dual bins – 140,000 mixed coin capacity

Each system simplifies coin management for your store.

High-strength, polymer bins are easy to change with lightweight dollies and can be stacked for easy storage.

Bag collection sorts or mixes coins into 16 high-volume bags for a capacity of up to 78,000 or 80,000 coins. Bag stations roll out for easy access.

Mixed bag with label printer shown above.

Customizable touch-screen display

A large 15" color touch screen guides customers through the coin-counting process. Custom graphics, images, and multilingual text give you the flexibility you need to promote products and services as well as cater to a diverse audience.

On-screen advertising

Advertise products and services through fixed images or continuous-play videos. On-screen advertising provides high visibility to your most important promotions.

Dual-bin coin collection minimizes interruptions and maximizes machine uptime.

Machine graphics

Outfit your coin-counting machines with eye-catching graphics. Use the standard graphics shown, or use customized graphics to reflect your brand.

Store options for coin-counting

When compared to the competition, we give you more choices for adding or replacing self-service coin machines.

Have a Money Machine placed in your store, lease a machine, or purchase your Money Machine. You have the freedom to choose the best option, and your customers enjoy the convenience of a self-service coin machine.

Attractive machine graphics bring attention to your coin counter and help increase usage.

Coin management programs

Cummins Allison offers two coin management options. Full-service or do-it-yourself.

Full-service coin management

For hands-free coin management of placement or bin machine, ask about our Coin Management Program (CMP). CMP keeps downtime to a minimum and allows bin machine customers to have the no-fuss experience that they desire. With CMP, Cummins Allison professionals monitor your coin machines remotely using our JetLink™ software. We dispatch bin pickups, handle bin reconciliation and processing, and deposit your proceeds via ACH. Customized reporting makes reconciling your payouts and reimbursements a breeze.

Do-it-yourself coin management

Want to maximize your profits? Our bag machines make “do-it-yourself” easy. Send any full bags that your employees remove from the machine with the next scheduled armored carrier pickup of your cash deposits.

You save on pickup fees because no additional pickup is required, and the carrier doesn’t need to send a truck with a lift gate as they do for bin pickups. But whether you use an armored carrier or not, you can still deliver the sealed coin bags from your Money Machine 2 along with your cash deposits.

You can also manage bin machines on your own to reduce costs.

Operational benefits: Work with your local Cummins Allison representative to determine which combination of product and program options best meets your business needs, risk level and revenue objectives.

Program/Product	Profit (1)	Risk-Free	Hands-Free		Recycle Coin
			Store(2)	CMP(3)	
Purchase/Bag	★★★★	★	★	N/A	★★★★
Lease/Bag	★★★	★★	★	N/A	★★★★
Purchase/Bin	★★★	★	★★	★★★★	★★
Lease/Bin	★★	★★	★★	★★★★	★★
Placement/Bin	★	★★★★	★★★★		★

(1) Includes all costs for managing coin. (2) Store manages coin. (3) Cummins Allison manages coin.

Money Machine 2 self-service coin counter

Standard features

High-speed processing: At speeds as fast as 4,100 coins-per-minute, Money Machine 2 boasts the fastest coin sorting in the industry.

Advanced debris management: Debris such as paper clips, screws, bolts and bent coin are diverted to a debris cup for easy disposal.

Continuous suspect coin detection: Suspect coins are diverted to a coin-return cup uncounted, maintaining the unmatched coin-sorting speed.

Transaction memory and reporting: More than 30,000 transactions are stored in the Money Machine 2 memory. Daily reports can be easily obtained by authorized employees at any time. Supports 100 individual user passwords.

Customizable screen display: Customized text and graphics may be used on the customer greeting screen. Service fee amounts and fee disclaimers can also be specified here.

Kiosk-style printer: Thermal kiosk-style auto-cut printer with presenter. Light activates when receipt is ready; interface notifies attendant of low paper or paper out.

Customizable transaction receipt: Print a logo with up to four lines of text at the top and bottom of the patron receipt (allows two logos total).
