

Drive-up ATM

H48ND

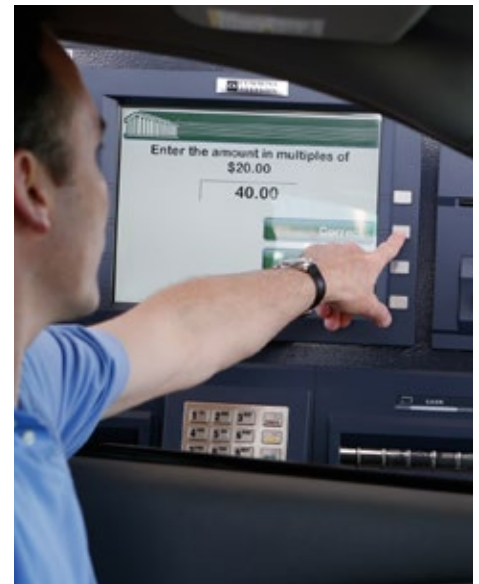

Drive-up model

Ideal for financial institutions of all sizes, the full-function H48ND features all the options needed in an island-style ATM. With EMV upgrade capability, the H48ND gives you access to today's technology with the ability to add new features when you need them, all at an affordable price.

ATMs are the face of your financial institution to many consumers, so it is critical to have equipment you can count on 24/7. The H48ND functions as an extremely secure, self-contained, automated branch in the drive-up lane.

Whether you are looking to upgrade or simply replace your existing island-style ATM, take a closer look at the H48ND. You'll find it is:

- **Easy to use** – Your customers want fast, convenient service and the H48ND offers just that. A large, color LCD display and high-speed cash dispenser enable customers to conduct their transactions quickly and securely.
- **Easy to service** – Equipment uptime is vital to maintaining customer satisfaction and revenue generating activities. The H48ND is highly reliable. When service is required, its modular design and easy access mean you'll be up and running again in no time.
- **Easy to upgrade** – Buy what you need today, knowing that you can easily upgrade later with new features, such as EMV software. The H48ND is hardware ready for EMV.

- **Easy on your budget** – High quality, reliable and built to last, the H48ND is also very attractively priced, so you can afford to add new units or replace aging machines.
