

CUMMINS

Security and Mobility

This stand and door combination provides an attractive, mobile and secure stand for all tabletop versions of the Cummins JetSort.

The security door provides easy access to the coin bags and coin boxes, even in tight spaces. Special hinges allow the door to be removed and replaced as desired. A sturdy lock controls access when the door is in place and secured.

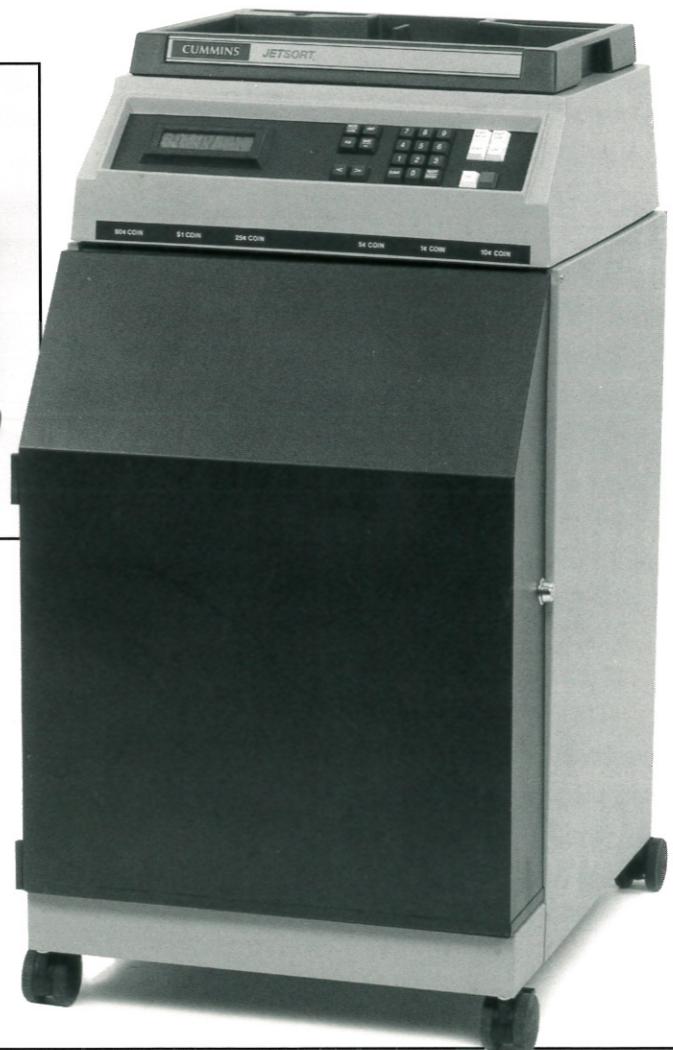

The stand can be ordered separately and used as a handy and mobile home for the JetSort.

JetSort

Security Stand

Specifications
