

**JETSCAN® MPX 8200 SOFTWARE SUPPORT AGREEMENT**

# Safeguard Your Investment

**SOFTWARE SUPPORT AGREEMENT**

- Never miss an upgrade

---

- Keep your equipment performing at its best

---

- Receive support with diagnostic assistance from software experts

Keeping your operation running at peak performance is our goal as well as yours.

Greater efficiency and time savings are gained using advanced solutions like the JetScan MPX 8200 multi-pocket sorter. While not as tangible as hardware, the complex functionality and enhancements that deliver improvements to counting, sorting, denominating and strapping large volumes of cash at high speeds are increasingly software-based. And JetScan MPX 8200 software is continually enhanced through upgrades to accommodate improvements, new requirements and general maintenance.

An annual software support agreement guarantees you will receive the latest updates and advancements to keep your equipment performing at its best. Software support includes:

- JetTouch® user interface and existing feature enhancements
- Phone, e-mail, or onsite support with diagnostic assistance from software experts
- Software-related machine enhancements, such as improved no call rates, enhanced note algorithms, and advances in denomination and authentication
- Enhancements in ticket imaging
- Continuous batch processing improvements
- Support for new US currency patterns
- Networking assistance
- Quality enhancement patch releases

Our annual software support agreement helps keep your equipment operating at its best. You will never miss an upgrade that improves machine operation or your operators' experience. Even customers performing their own equipment maintenance will strongly benefit from the software support agreement, with immediate support for software updates and networking assistance on software related issues.

Cummins Allison's nationwide network of local service and support professionals are committed to your satisfaction. Additionally our National Field Service team provides expert assistance as needed. Together we're all here to ensure your equipment continues to strengthen the efficiency of your operation.
