JetSort®
High Speed Coin Sorters
Up to 10,000 coins per minute, 99.995% accuracy, exact stop coin-counting technology
High speed coin sorters for any application

The fastest and most accurate coin sorters and counters in the industry.
The JetSort® family of coin counters are the fastest, high-capacity coin processors in the industry. The patented technology used in JetSort machines sorts and counts at speeds up to 10,000 dimes per minute.

Accuracy and Dependability
Managing coin processing is easy when counts are quick and accurate. With 99.995% accuracy, JetSort products provide precise processing. This translates into less time managing coin processing and more time for other tasks.

Unmatched dependability
Warranted to 50 million mixed coins JetSort coin counters ensure years of operating excellence. Designed with only one moving part means fewer jams and lower maintenance costs.

Exact bag stops
JetSort is the only high speed coin sorter that stops on the exact count – every time. Simply set each bag to the amount you want processed, with no more adjustments or manual shifting of coins from bag to bag. Each denomination can be set for varying quantities and changed on demand.

Dual bags for high demand
To accommodate large quantities of specific denominations and allow for longer processing times, the JetSort 6000 model offers dual bags. Minimize down time and bag changes with dual bagging capability.

Fast and Flexible
Fast and efficient, JetSort commercial coin sorters are warranted to 50 million coins. Only Cummins Allison technology helps you:

- Maximize efficiency with processing speeds up to 10,000 coins per minute.
- Ensure balanced deposits with 99.995% accuracy and exact bag stops.
- Expand processing volume with dual bags for high-volume denominations.
- Improve flexibility with rich features and options designed for your changing business needs.

Enhance productivity with the world’s most powerful coin processor.
World class service and support

Cummins Allison service technicians stand behind each product. Delivering dependable, local service and parts inventories, each skilled professional is trained to maintain your specific machine requirements. CA service is unparalleled, 97% satisfaction to customers day in, day out, year after year.

With a wide variety of models to choose from, the JetSort family of products can meet your business needs. Select the processing speed, coin collection method and much more.

Complete Processing Systems

Each JetSort model can be interfaced with Cummins Allison currency equipment to combine coin and currency totals which may be transmitted to your computer or printed at the machine.

Optional large capacity lift tray pours coins quickly and neatly into sorter.

JetSort® High Speed Coin Sorters

Specifications

Accuracy: 99.995%

Coins: 1¢, 5¢, 10¢, 25¢, 50¢, $1 SBA.

Dimensions

2000: 19.6” W x 20.5” D x 18.5” H
3000: 19.6” W x 20.5” D x 18.5” H
   (with inspection tray)
   19.6” W x 20.5” D x 22.5” H
   (with lift tray)
4000: 22.5” W x 23.0” D x 38.2” H
   (with inspection tray)
   22.5” W x 23.0” D x 42.5” H
   (with lift tray)
6000: 26.3” W x 23.5” D x 42.3” H

JetSort 2000 Series
JetSort is also available in a small, counter-top model to fit tight work spaces.

JetSort 1000
JetSort also available in a small, counter-top model to fit tight work spaces.

Power: Voltage operating range is 105-130VAC. Frequency is 50/60Hz. Customer must provide a single-phase, dedicated power line that meets the machine’s power rating(s). Power conditioning/stabilizing devices are available for purchase from Cummins Allison.

Power consumption (full load amps) at nominal voltage:
JetSort 2000 Model:
6.0 Amps (120v); 3.0 Amps (220v)
JetSort 3000, 4000 & 6000 Models:
9.0 Amps (120v); 4.5 Amps (220v)

Options & Accessories

Configured to meet your specific requirements with a variety of options and accessories, JetSort’s capabilities are nearly limitless.

Electronic Options Kits: A wide variety of option kits are available to support your coin processing applications. For example data entry, currency counting, bar code scanning and much more.

Coin Lift Tray: JetSort trays facilitate coin processing.

Printers: Provides permanent and easy to read record of coin processing.

Remote Display: Large LED display of totals for customer viewing.

Security Doors: Restricts access to coin bags (varies by model).

Generations of Vision and Excellence
Cummins Allison sets the standard for accuracy and dependability.

Cummins Allison is a global leader in developing solutions that quickly and efficiently count, sort and authenticate currency, checks and coin. We also offer a complete line of full-function automated teller machines (ATMs). With a 125-year heritage of leadership in technology and product innovation, Cummins Allison serves the majority of financial institutions worldwide, as well as leading organizations in retail, gaming, law enforcement and government. Ninety-seven percent of our customers recommend our products and services.

CA holds more than 350 U.S. patents and invests double the industry average in R&D. Our world-class sales and service network includes hundreds of local representatives in more than 50 offices in North America, 4 wholly-owned subsidiaries in Europe and is represented in more than 70 countries around the world.
